

Free New Educational Game with Supporting Resources

[The Astounding Adventures of Matty the Water Molecule](#)

Engage students and meet NGSS, Common Core,
Climate Literacy, and Ocean Literacy Standards

Join game creator [Rick Reynolds, M.S.Ed.](#), Founder of [Engaging Every Student](#), for an adventure in professional development (PD) for educators!

Explore hands-on, place-based and [Scratch](#) coding content that go beyond the game experience to take student learning to the next level.

- **Tuesday, May 21, 2024, 3:30 – 4:30** Pacific Time
- **Thursday, May 23, 2024, 4:30 – 5:30** Pacific Time

Get a certificate for 2 PDUs after you attend one of the workshops, play the game, and reflect on how you might use it and the hands-on activities to engage students.

[Click here to register and/or try the game!](#)

The game with interactive story is targeted to grades 3–5 and is useful as a resource for grades pre-K–12. The narrated story supports emerging readers and development of literacy skills. Each scene can be played separately, for maximum flexibility.

Check out an interactive Padlet of supporting resources that we are creating [here](#), and please [let us know](#) if you have content suggestions or feedback. :)
